Education

since 10/2025	**M.Sc. Computer Science - University of Tübingen** Deepening theoretical machine learning knowledge
10/2024 - 12/2025	**B.Sc. Computer Science (English) - IU International University of Applied Sciences** Computer science degree program, completed in about one year
09/2012 - 07/2020	**Dietrich-Bonhoeffer-Gymnasium**

Research & Competitions

2026	**Learn2Design 2026 - NeurIPS competition track | 13th of 110** Developed physics-based optimization methods for gravitational-wave detector design using JAX. Built differometor-fast, an optimized simulator backend. Technical report in preparation.
2026	**Scientific machine learning challenges** Neural Interfaces: EEG decoding across sessions and participants. Fusion Equilibrium Challenge: plasma reconstruction from non-magnetic diagnostics. Agenthon: coding, forecasting, simulation and explainability.
05/2026	**QLoRA Fine-Tuning for Next User Turn Prediction and Multi-Step Dialogue Rollouts** IEEE ICETSIS 2026, Manama, Bahrain, pp. 1548-1555. DOI: 10.1109/ICETSIS68266.2026.11549360

Work Experience & Entrepreneurship

since 05/2025	**Sunderlabs - Founder** Reinforcement learning and NLP research; development of agentic systems
since 07/2023	**HB Capital - Co-Founder** Development of trading infrastructure, backtesting systems, and RL environments
07/2022 - 07/2023	**LI.FI - Backend Developer** Development of data connectors for on-chain data
12/2020 - 05/2021	**Remotly GmbH - Full-Stack Developer**
01/2020 - 07/2022	**Boehler IT Solutions - Freelance Full-Stack Developer**

Civic Engagement

05/2018 - 09/2022	**Youth Council, City of Filderstadt (2 terms)** Participated in a youth council for two consecutive terms.
2018 - 2019	**Tennis Coach (Children's Training)**
